

Fremont Sept. 19th 1863-

Dear Colonel

Enclosed you will find all the letters written by Genl Sherman, ^{in my office} and I think perhaps that you had better return those you do not want as many of them may be required in the settlement of the accounts I should have sent them before but it had slipped my memory. I suppose owing to the sickness of my little Boy, which has taken my attention since my return almost to the exclusion of every thing else, he seems to be a good deal better this morning and I hope will soon be well.

Hoping this will find yourself and family in the best of health

I remain yours &c
Hutcho
