TULANE UNIVERSITY SCHOOL OF MEDICINE

**CLASS OF 2010
T-WAVE
VOLUME XXIV
NEW ORLEANS, LOUISIANA**

SCHOOL OF MEDICINE

Office of Admissions and Student Affairs

November 1, 2005

Dear Applicant:

We take great pleasure in informing you of your appointment to the first-year medical class at the Tulane University School of Medicine, to enter in August of 2006. We sincerely hope that you will accept our invitation to take your medical training at Tulane and look forward to having you join us.

In order to reserve your place in the class, we must receive, within the next two weeks, written notification of your intent to accept our invitation. At any time between now and May 15, 2006, we must receive a check, payable to the Tulane Educational Fund, in the amount of \$500; this deposit will be credited against your first tuition billing. This deposit should indicate your final decision to attend Tulane University School of Medicine. We ask that should you decide not to attend Tulane, you inform us in writing so that we can maintain an accurate accounting of our class.

We are sure you will understand that your appointment is contingent upon successful completion of the academic program in which you are currently enrolled, and maintenance of the level of academic performance that was part of the basis for your acceptance. A final transcript of your grades must be forwarded to this office as soon as your school year ends.

You will be receiving additional information concerning summer programs, combined-degree programs, and other topics of interest as the year progresses. On behalf of the students, faculty, and administration at Tulane, we bid you a most enthusiastic welcome. If we can be of service to you in any way, please feel free to call upon us.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Marc J. Kahn".

Hippocratic Oath

I swear by Apollo the physician, and Asclepius, and Hygieia and Panacea and all the gods and goddesses as my witnesses, that, according to my ability and judgement, I will keep this Oath and this contract:

To hold him who taught me this art equally dear to me as my parents, to be a partner in life with him, and to fulfill his needs when required; to look upon his offspring as equals to my own siblings, and to teach them this art, if they shall wish to learn it, without fee or contract; and that by the set rules, lectures, and every other mode of instruction, I will impart a knowledge of the art to my own sons, and those of my teachers, and to students bound by this contract and having sworn this Oath to the law of medicine, but to no others.

I will use those dietary regimens which will benefit my patients according to my greatest ability and judgement, and I will do no harm or injustice to them.

I will not give a lethal drug to anyone if I am asked, nor will I advise such a plan; and similarly I will not give a woman a pessary to cause an abortion.

In purity and according to divine law will I carry out my life and my art.

I will not use the knife, even upon those suffering from stones, but I will leave this to those who are trained in this craft.

Into whatever homes I go, I will enter them for the benefit of the sick, avoiding any voluntary act of impropriety or corruption, including the seduction of women or men, whether they are free men or slaves.

Whatever I see or hear in the lives of my patients, whether in connection with my professional practice or not, which ought not to be spoken of outside, I will keep secret, as considering all such things to be private.

So long as I maintain this Oath faithfully and without corruption, may it be granted to me to partake of life fully and the practice of my art, gaining the respect of all men for all time. However, should I transgress this Oath and violate it, may the opposite be my fate.

In memory of Dr. Krishna C. Agrawal: Dr. Agrawal, Professor and Chairman of the Department of Pharmacology at Tulane Medical School, passed away Saturday 12th of December, 2009, at the young age of 72. Dr. Agrawal's strong and revered presence and his kind and gentle guidance, will be missed by all. He was born in Kolkata, India in 1937. He received his Ph.D. from the University of Florida and did postdoctoral research at Yale University where he was promoted to Associate Professorship in 1976. Later in the same year, Dr. Agrawal was recruited at Tulane, in the Department of Pharmacology, where he rose in reputation and academic rank and was appointed interim Chairman in 1996. In 1999 he was appointed as the Regents Professor and Chairman, and admirably and efficiently served that position for the last ten years.

Back in the days: Dr. Agrawal (top, third from right) with Departmental Faculty and previous Chairman, Dr. Fisher. With first of many 'Owl Club' awards.

Dr. Agrawal loved a good party with the faculty members.

Dr. Agrawal was responsible for numerous publications and grants that helped substantial developments towards HIV and cancer research. He published more than 125 peer-reviewed manuscripts, and authored a number of book chapters. He was awarded many research grants from the National Institute of Health (NIH), and the Department of Defense (DOD). He was the recipient of a number of awards including a special award from Mr. Jack Aron to establish "The Jane B. Aron Laboratory for Pharmacology" at Tulane.

Dr. Agrawal was particularly devoted to his teaching. He was especially proud of the Master of Science Program in Pharmacology, which he co-founded in 1999. He directly oversaw the post doctoral training of 18 individuals and graduated 15 doctoral students, many of whom now hold faculty positions at universities throughout the country. His work was recognized by invitations to participate and chair scientific sessions at numerous national and international conferences.

Dr. Agrawal was highly respected in the local Indian community as well. His exemplary life was inspired by his loving wife, Mani, his children Sunil, Lina and Nira, and seven grandchildren. He was a loving husband, a wonderful father, and a dear friend to all. Tulane, and especially the Department of Pharmacology, will always remember the tragedy that occurred on that rainy night in December. May his soul rest in peace.

In Memoriam

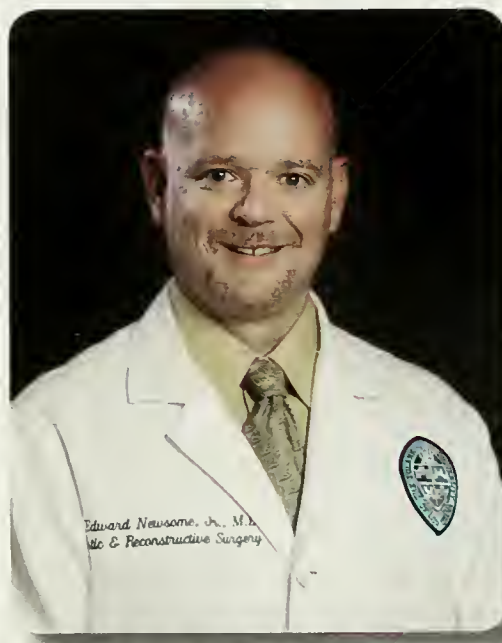

Dr. Edward Newsome

Dr. Edward Newsome received his MD from the University of South Alabama where he also completed his residency in general surgery. Following his general surgery residency, Dr. Newsome went into private practice in general surgery and emergency medicine in Mississippi. In 1996 he continued his graduate medical education in the Plastic Surgery Residency Program at Temple University Hospital in Philadelphia, Pennsylvania. He was certified by the American Board of Plastic Surgery and the American Board of Surgery.

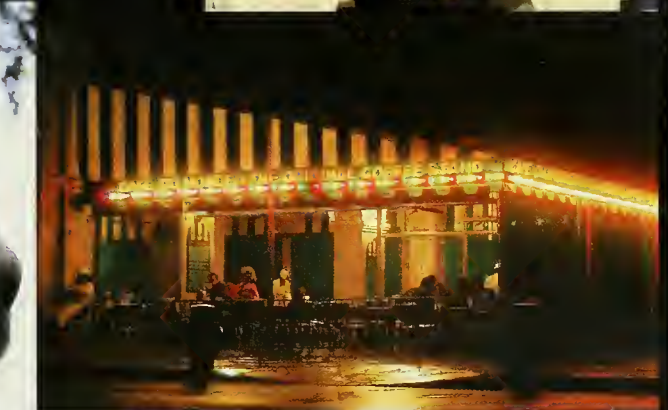

He joined the faculty at Tulane University School of Medicine in 1998 in the Department of Surgery, Section of Plastic Surgery. Ed developed a very active clinical practice and was respected for his surgical skill, dedication to excellence, and commitment to all patients. He had a special interest in reconstructive surgery, complex wounds, lower extremity salvage, skin cancer and melanoma. He was a Fellow of the American College of Surgeons, and a member of the American Society of Plastic Surgeons, American Board of Plastic Surgery, the American Association of Plastic Surgeons and the Association of Academic Chairmen of Plastic Surgery. In addition he was a member of several local organizations, including the Tulane Surgical Society, Orleans Parish Medical Society, New Orleans Surgical Society, and the Surgical Association of Louisiana.

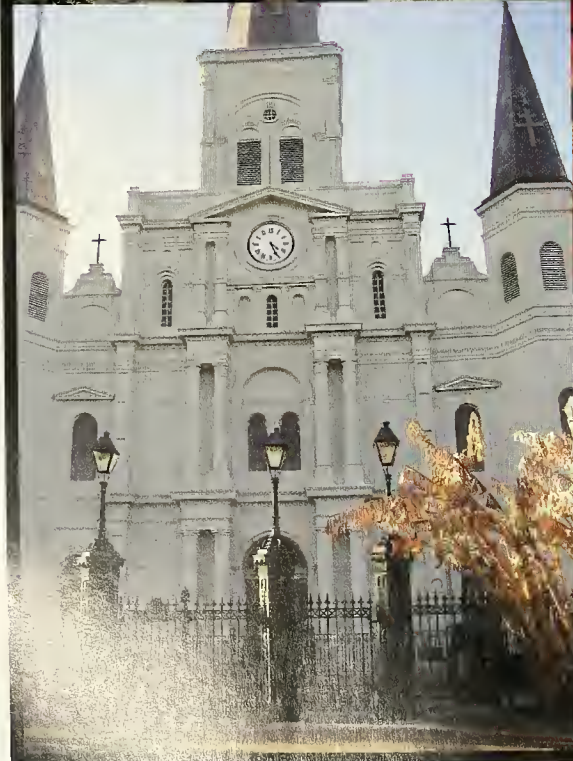

Ed had an unequalled commitment to the academic mission of Tulane University School of Medicine. He was devoted to surgical education. He worked tirelessly to establish a unified plastic surgery residency in southern Louisiana. In realizing his vision, he created one of the premier plastic surgery training programs in the country. By founding the unified plastic surgery residency, Ed was able to bring together plastic surgeons throughout the region, and from all the major training centers, allowing for greater cooperation and improved patient care.

In the immediate aftermath of Katrina, Dr. Newsome worked both to provide patient care and to ensure that the Tulane residents and students continued to receive their education and training. His commitment to resident education gained him national recognition. He was named the Chief of the Division of Plastic Surgery and the Assistant Dean for Graduate Medical Education at Tulane in recognition of his leadership. In addition, he held the William Henderson Chair in surgery.

To our Classmates:

As the yearbook committee, we've had the pleasure to sort through a lot of our memories. From tubing to Saints touchdowns, cadavers to clinics, and everything in between, we have seen the evidence that this has been an amazing four years.

We came to New Orleans not knowing what we would find. We have been a part of a city that has turned the lowest lows of hurricane devastation into the highest highs of a Saints Superbowl (WHO DAT!). Just as the city has changed, so too have we.

Four years in labs, libraries, coffee shops, restaurants, and bars. Studying, volunteering, and having fun. All of these things have helped shaped us into the physicians we have finally become. We have learned not only to be doctors but also to be citizens of the community.

We hope that this yearbook will serve as a reminder of all the experiences that we have shared. Whether it is in five months or fifty years, we hope you look back on these pages as treasured memories.

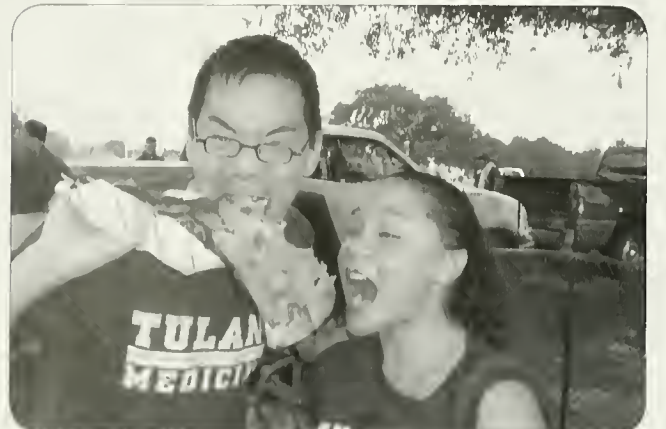

Yours truly,

The 2010 Wave Yearbook Committee

*A wine bottle fell from a wagon
And broke open in a field.*

*That night one hundred beetles and all their cousins
Gathered*

And did some serious binge drinking.

*They even found some seed husks nearby
And began to play them like drums and whirl.
This made God very happy.*

*Then the "night candle" rose into the sky
And one drunk creature, laying down his instrument,
Said to his friend- for no apparent
Reason.*

"What should we do about that moon?"

*Seems to Hafiz
Most everyone has laid aside the music*

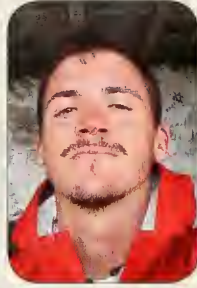

*Tackling such profoundly useless
Questions.*

To all of our classmates not quite ready to leave Tulane SOM:

Congratulations! You figured it out...sticking around Tulane for a while longer means you get to spend way more time taking bookstore breaks with Maris, and those of us graduating in 2010 are all more than a little jealous. It may be hidden under a layer of excitement at getting to lay eyes on Anderson Cooper or finally finding out that P=MD, but, rest assured, we are jealous...and we are going to miss you...and Maris.

In all seriousness, whatever your reasons may be for not graduating in 2010, you have been an irreplaceable part of our class & medical school experience - without you all, it would not have been the same amazing four years. Please hold down the fort at Tulane for all of us who came together circa 2006 with an eye toward learning about life and medicine...keep that spirit alive.

*We will miss you, but we wish you the very best of luck in your life adventures, further studies,
and other endeavors!*

Tulane School of Medicine Graduating Class of 2010

Congratulations, Layton!

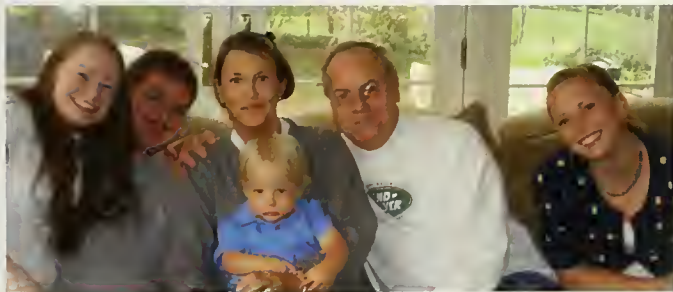

*We are all so proud of your accomplishments.
We are excited to have a doctor in the family!*

*Lots of love,
Mike and Julie
Chris and Kristen
Jon and Courtney
Laura and Spencer
And all the kids!*

Way to go, Layton! Thanks for all your hard work, late nights and long hours. We have enjoyed taking this ride along with you and look forward to the journey ahead! We love you and are so proud of you!

XOXOXO

Amanda, Owen and Anna

One of the great privileges of being a parent is to watch the milestones of your children. Along life's journey, Layton, you have become many things: son, brother, husband, father and friend. We are proud of the wonderful ways you have developed in these important capacities and associations. We love you and have enjoyed being part of the rich variety of your life.

It has taken considerable dedication and effort but "Doctor of Medicine" is something which will forever be yours.

Layton, Congratulations on this milestone!

Love,

Dad and Mom, Jonathan and Karlie, and Liz

*Thank you to my sons
Joshua James Pease,
Timothy James Pease, and
my soul-mate Elizabeth
Anne James for putting me
through medical school.*

Mark Pease

Dearest Crystal,

As we watched you grow and learn, we knew you would turn out to be special. We saw that great energy and enthusiasm in everything you did. Not only have you achieved lofty goals, but on top of that you are a truly wonderful, caring, and dedicated person. Ain't no stopping you now. Live your dreams!

Mom & Dad

Congratulations, Sean, on making your goal!
I'm proud of you!

Love, Mom

Dear Shaleah,

Congratulations! We are so very proud of you.

Mom, Danielle, and Cyntrell

Dr. Fudge, Fu Fighter, AHO:

What a trip... May your NOLA days be remembered as the Lagniappe they were intended to be. Don't go getting all fat-headed about things, but we stand proud to call you brother, AHO, son and friend. Do good work and the blessings will follow.

Sinn Fein,
Ma, AHO # 1, AHO # 2,

Cheers to your Success

Dr. Bri!

*Love,
Janae*

Dr. Davie, we are soooo proud of you!

**Love,
Mom, Dad, and Steph.**

To our daughter, Dr. Amanda Kimberly Martin:

As our only child, you are truly our pride and joy. God Almighty in Heaven has truly smiled upon you and has blessed you to accomplish so much in the 25 years that you have been with us. Continue to believe in Him, and He will surely guide you into greener pastures. Always remember to be a blessing to others, and God will continue to take care of you. With God on your side, you have nothing to fear; we know that you will be a fine physician! May God continue to bless you and keep you on the straight and narrow path to Glory.

“Trust in the Lord with all thine heart; and lean not unto thine own understanding. In all thy ways acknowledge him, and he shall direct thy paths.”
(Proverbs 3:5-6)

Hugs, Mom & Dad

Kelly,

What an amazing journey you have been on! From the day you were born (of course, you couldn't wait until your due date – you had to arrive four weeks early to make your grand entrance) to winning the fourth grade math award (who knew you actually liked math!) to deciding in the sixth grade that you wanted to become a doctor. And, who knew that an Emory degree in Italian would be more helpful to get into Tulane than a B.S. in Neuroscience and Behavioral Biology. Definitely, who knew!

But, your strong will, hard work, and determination have led you to accomplish your goal – “Dr. Kelly Lynn Erwin.” We are so very proud of you – not only for becoming the first doctor in the family, but also for becoming the wonderful person you are. Remember, your journey does not stop here – it only continues. We wish you both happiness and continued success in your medical profession. **THE DOCTOR IS DEFINITELY IN!**

Love,

Dad, Mom, Joe, and Caitlin

**FROM THEN TO NOW
YOU'VE ALWAYS MADE

Congratulations Sarah and Alan!

You have successfully completed the first steps in what will become a lifetime of service through the profession of medicine. In you will be placed the sacred trust of all who come to you for your expertise and care. We know you will live up to that trust with wisdom, diligence, leadership and compassion.

Never lose your passion for learning and your concern for others. All good servant leaders must be lifetime learners.

Thank you for letting us be a part of your lives. We have the highest respect for the woman and man you have become. You set an example of excellence in all you do.

It has been a blessing and privilege to have you, Sarah, as our daughter, and you, Alan, as our son-in-law. Keep up the good work. We are very proud of you.

The Distinguished Women of...

94 Shades of Distinction,

would like to congratulate our Soror,

Ms. Brianne Hunter

on obtaining her Medical Doctorate.

Congratulations,

Brianne Hunter M.D.

Brianne,

Desire is the key to motivation,
but it's the determination and commitment
to an unrelenting pursuit of your goal
– a commitment to excellence - that will
enable you to attain the success you seek.

Congratulations Doctor
and
may GOD continue to bless you.

We are so proud and inspired by
all of your amazing accomplishments.
We hope that GOD continues to bless
and strengthen you to be
the best doctor you are destined to be.

Love Always,
Kashley and Chiara
AKA
TaterTot and Cheezie

Congrats Dr. Brianne S. Hunter

Brianne,

What is the recipe for successful achievement? To my mind there are just four essential ingredients:
Choose a career you love... Give it the best there is in you...Seize
your opportunities and be a member of the team. In no country
but America, I believe, is it possible to fulfill all four of these
requirements.

Competition is a by-product of productive work, not its goal. A
creative woman is motivated by the desire to achieve, not by the
desire to beat others.

Success is not measured by what you accomplish but by the
opposition you have encountered, and the courage with which
you have maintained the struggle against overwhelming odds.

Congratulations and may GOD continue to give you the desires
of your heart.

Love,
Your Aunts, Uncles, and Cousins

Dedication to my Daughter

To my daughter, I will always remember the doctor saying, “it’s a Girl!” As I took you gently in my arms and looked at those ten toes and fingers, I was in amazement of what God had created. I believed the most important thing I did was to have you dedicated before the Lord. The pastor held you in his arms and lifted you up to the congregation and prayed. I remember the question he asked, “Will you promise to pray for her and lead her in the ways of righteousness, will you teach her of God and of the salvation given to her through the acceptance of Jesus Christ. Will you love her and care for her as God loves you?”. I cared for you, nurtured and watched you flourish. When you started to play outside, I taught you about safety. When you started school, I cried liked every other mother I know. When you came home from school upset and hurt about something, I reassured and comforted you. As you experienced the teenage years, our relationship began to change. I remember sitting with you and telling you, “These will either be the Best years of our lives or the Worst”. You challenged to make them the Best. Oh, it wasn’t easy on your behalf or mine, but, God was there. My commitment as a mother remains. I will continue to pray without ceasing that God will direct your life, that you become the Woman God has called you to be and that you will follow the paths he has chosen for you. From diapers-to cars-to jobs-to your future. I’m So Proud of all the Joy in life you haven given me! You are truly a blessing and the greatest gift God could have given me, walk in the light of God’s word, hold on to the truths you have learned and go....begin your life anew. Remember, I will always be here for you....but most importantly, when we’re not together, God will be your guide. God Bless you, I love you my Daughter.

Love Your;
MOTHER

Brianne

This is my prayer for you

May GOD take all limits off you and your future endeavors.
That there are no boundaries and your territory is ENLARGED.
That you go forth with every confidence and ounce of courage knowing that
GOD HAS ARMED YOU with wisdom and knowledge.
May you know that you are the seed of Abraham and everything that
pertains to you shall be blessed.
I thank GOD for the anointing he placed on your hands, so that everything
that you touch shall be healed, restored, and recovered.

Congratulations Dr. Hunter!!!

I am so very proud of you and happy to be apart of the promise that GOD
has placed inside of you.

*I Love You

LEADING THE QUEST FOR HEALTH.

More than 100 years ago, Cedars-Sinai was a small hospital whose goal was to provide the finest quality care to the Los Angeles community.

Today our reputation for excellence extends around the globe. Our commitment to medical research and innovation, combined with our passion for patient care and safety, has made us one of the most dynamic and highly renowned medical centers in the world.

Medical education has been a core mission of Cedars-Sinai since its inception. Our residency and

fellowship programs enable physicians to develop their clinical expertise as well as participate in a wide range of research activities.

At Cedars-Sinai, there are more than 825 research projects underway, and we're making new discoveries and putting them into practice every day.

Our goal is to stay at the forefront of medical advancement. Only in this way can we maintain the gold standard of excellence in healthcare for another century to come.

75 YEARS OF PARTNERSHIP

Blue Cross and Blue Shield of Louisiana has served the families of this state since 1934. What started as a one-room office in New Orleans now makes a \$3.5 billion impact on our local economy.

Louisiana doctors and hospitals put their trust in Blue Cross and Blue Shield of Louisiana. For four straight years we were voted No. 1 in Provider Satisfaction by the nationwide Blue Cross network. We're proud of our outstanding relationships with the providers that keep our networks strong.

More than 1.1 million members also count on us. For the 2nd year in a row, our company has received a Brand Excellence Award for Member Retention, recognizing the service and value we provide to our customers.

A lot has changed since 1934, but our commitment to Louisiana has never wavered. We've been here through good times and bad... from birth to retirement... in sickness and in health.

Today. Tomorrow. Always.

IASIS

HEALTHCARE. Where you could be.

Pick your next sunset.

IASIS Hospitals offer the finest aspects of medical practice in appealing locations. Our facilities continue to keep pace with the growing needs of our surrounding communities in Arizona, Louisiana, and Texas. Join us in an environment where your skills will truly make a difference. Employment and Private Practice arrangements available.

Glenwood Regional Medical Center's proud tradition of providing high-quality healthcare started more than forty years ago. Over the years, the hospital has grown in size, adding new services and modern technology, but you'll still find the same family-oriented, friendly service that's been the cornerstone of this community hospital since the day it opened. Glenwood is nationally recognized for quality, especially in the area of cardiology, and consistently scores high in patient satisfaction.

This 244-bed hospital offers PAC System, ICU unit, 6-bed CV/ICU unit and CV Telemetry unit and is the only full-service hospital in West Monroe, LA. The facility draws from a 12-parish service area, and receives great support from the hospital Board and Administration, the community, and corporate support from IASIS Healthcare. West Monroe is one of the twin cities of northeast Louisiana, and the area offers a wide array of housing options, schools, and churches.

Pediatrix Medical Group, the nation's largest physician group practice of maternal-fetal, newborn and pediatric subspecialists, congratulates the Tulane University School of Medicine's Class of 2010.

Pediatrix offers physicians the best of both worlds: the clinical autonomy and atmosphere of a local private practice coupled with the opportunities, administrative relief and clinical support that come from an affiliation with a nationwide network. We are unique not only because of our clinical and business expertise, but because we have made a major commitment to education. Through our Professional Development Award program we have extended that commitment to the support of neonatal, pediatric cardiology and maternal-fetal medicine fellows. The program, which provides recipients up to \$25,000 annually, allows interested and qualified individuals to pursue these fellowship programs while relieving some financial burden.
