The New York State Freedom & Peace Party is offering the people a political vehicle through which they can participate independently of the established parties of racism and war.

Freedom and Peace, in its first year of existence, has rejected narrow, sectarian attitudes which tend only to divide and separate people. Instead, it seeks to unite those forces, black and white, that are working for freedom, peace, improved living conditions and political change in our nation.

This year, the candidacies of Dick Gregory and Mark Lane (on the ballot in 5 states and by write-in organized in 20 more) will reach broad numbers of people who realize the urgent need for an independent alternative to Humphrey, Nixon and Wallace—and their parties.

Moreover, through its political program, candidates, speaking to issues and taking direct action in support of those issues, the Freedom and Peace party intends to build an independent party of the people which can seriously challenge the established parties in the local, city-wide elections throughout N.Y. State, in 1969 and beyond.

We invite everyone to join the Freedom and Peace Party and to participate in this vital effort.

Also on the Freedom & Peace Party Slate:

State-wide: Herman B. Ferguson, U. S. Senate; Grace Mora Newman, Congress; Beulah Sanders, State Senate; Carolyn Rivers, Flora Brown and James Tucker, State Assembly.
