

Mr. Kramer,

The writer, Helma Duesing Torle, is mother of the brilliant socialist, John Kennedy Torle, has experienced a keen urge to communicate with you about the forthcoming movie of "Confederacy of Dunces." This is based upon sixteen years of Dramatic Art training, in which I was successful as performer, teacher, and director.

When you formulate plan for the movie, would you please give me an opportunity to speak with the director? I am hoping to be of substantial assistance to him because I have insight into the characters about whom my son writes so clearly and impressively. My observations of the procedure would be quiet, non-intrusive, but very penetrative.

May the movie bring rich financial rewards, in return for your astute judgment in securing the production rights.
Looking forward!
