

Fosterstone Wednesday

Dear Mr. Tuckell.

The papers I actually  
employed were made for me by  
Dabosc of Rue de l'Odéon Paris.  
But Mr. Ladd of Beak Street has, I  
think, similar ones. If you had time  
to name them they would be well  
made by Foley Spiller of Chrompton.

The scientific plates were  
prepared for me by Mr. Parker

Paradise Street, Lambeth.

I am here getting a little  
rest, which I much need.

Faithfully Yours

Wm Foxall
