September.

Dear Thelma,

Thanks for all the additional goodies you sent me & for the invitation, also. - I have been so busy getting ready for a trip to Las Vegas - I haven't had very much time to devote to anything else. -

I hope your recital was well received & I hated to miss it. Maybe I can make the next one! -

Joni's husband, Anthony Meyn, died last week & we were saddened by it - - & hope that Joni can shake out of her grief trauma soon. - - She is ministering to my mother & has a lot of people

brothers & sister around her all the time so I guess that will help to keep her mind off of the passing. -

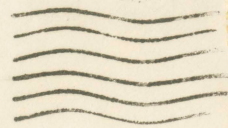

We are driving to Las Vegas - & on the way will stop in Los Angeles to visit all of the folks & especially to wish my mother "A Happy 100th Birthday!" - Would you believe? She is too, too much!

Take care of yourself! - I will try to call you the very next time I come to New Orleans.

Hope things concerning the book are swiftly moving along & that you will soon become a millionaire! -

Sincerely,
Pauline
