Worcester Jan 15. 1841

Dear Sir

Enclosed I send You Twenty Dollars for the benefit of the Africans of the An-istall. Please so to apply it. The donors feel a great interest for the liberation of these injured Children of Africa; and they would exercise ^{the} power that should deliver them into the hands of the "spoiler," from whom they es-aped by such daring courage.

Faint, mirrored handwriting is visible across the page, appearing as bleed-through from the reverse side. The text is largely illegible due to its lightness and the paper's texture.

Subi In giving You the names of those who contributed
to the small sum sent, I beg You not to conclude that
it ^{was} that of such importance as to demand any notice.
I am desirous to aid in the spread of Anti Slavery
principles. The persons are not all Abolitionists; but
they all feel right on this particular subject.

✓ If it is not asking too much, I request that
a copy of the December No. of the A. S. A. S. Reporter
be sent to each one.

I have shown the fac simile of Keli's hand writing
to all that I have called upon. Some say and
effect to believe that he did not write it without
aid; its orthography being so correct. But none
such give any thing, neither is it probable that
they feel much. / Yours L. H. A.
