Dear Father

Mother and Annie
have gone to Auburn, and Libbie has not got
home from school yet, so only George is
with me while I write this letter.

When you have time please write us
about New Orleans.

We have had Dick about three months and
he sings quite well for a bird so young
I think, for he was not a month old when
we got him I do not think.

I send this as he left it last
night. I know you will like
to see the little marks again.
